-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of March 25, 1976 (based on reports from exporters during the week ending March 14, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 increased by 329,600 metric tons (MT), bringing the total for the year to 29.5 million MT. New sales were largely responsible for the increases in commitments to Japan, 81,300 MT; the Philippines, 72,900 MT; Taiwan, 54,000 MT; and Brazil, 50,000 MT. Commitments to Japan now stand at 3.1 million MT, about equal to that for the comparable period last year. Commitments to the Philippines are now more than double totals reported at this time a year ago. Commitments to Brazil now total 2.7 million MT, of which 2.1 million MT have been exported. The 2.1 million MT already exported to Brazil from July 1975 through March 14, 1976, represent a record level of U.S. wheat exports to that country.

Feedgrains: The apparent export commitment for feedgrains advanced by 892,300 MT to a total of 32.4 million MT. Corn commitments rose by 790,400 MT, the largest weekly increase in commitments since the week ending February 15, 1976. Some of the major increases in commitments were to the USSR, 240,000 MT; Japan, 239,500 MT; and the European Community (EC), 247,200 MT. The increase in commitments to the USSR largely reflects transfers from optional origin rather than new sales. This week's increased commitments to Japan have pushed total commitments to that country for the year to 3.8 million MT. The increased corn commitments, principally to the Netherlands, West Germany, and Italy, now bring total commitments to 6.3 million MT for the year to the EC. Sorghum commitments increased by 60,700 MT to total 4.2 million MT for the year, about 1.4 million MT below those for the comparable period a year ago. Increased commitments to Japan of 75,700 MT were largely responsible for this week's total increase in sorghum commitments, though they were somewhat offset by a decline in commitments to unknown destinations of 50,400 MT.

Rice: The apparent export commitment for rice in 1975/76 rose by 87,600 MT, largely as a result of new sales of PL-480 rice to Bangladesh of 61,000 MT. Commitments to Bangladesh now total 200,000 MT, of which 139,000 MT have been exported. Rice commitments for the year total 1.2 million MT, compared with 1.9 million MT at this time last year.

Soybeans: The apparent export commitment for 1975/76 increased by 258,700 MT, primarily reflecting increased commitments to the EC, Spain, and Japan. Exports during the week totaled 252,300 MT, down sharply from the previous week's 415,500 MT. Major takers were the EC, 129,800 MT; Japan, 68,100 MT; Greece, 16,600 MT; and Indonesia, 13,100 MT.

USSR soybean production in 1975 has been officially reported to be a record 780,000 MT, more than double 1974's harvest of 360,000 MT. Oil and meal outturn for domestic consumption during 1975/76 are estimated at 125,000 MT and 560,000 MT, respectively. Soybeans in the USSR are harvested primarily in the Soviet Far East where the weather was evidently ideal during last year's growing season. So far this season, the United States has exported 93,600 MT of soybeans to the USSR of a total reported import requirement of up to 1.5 million MT.

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased by 115,700 MT, the largest weekly increase since the week ending November 2, 1975. The increase primarily reflects larger commitments to France, East Germany, Poland, Spain, and unknown destinations. Exports during the week totaled 118,700 MT, primarily to France, 55,000 MT; West Germany, 16,700 MT; Poland, 12,600 MT; and Spain, 11,700 MT.

Cotton: Export sales activity again increased over that of the previous week. Sales for 1976/77 shipment were the second highest weekly total recorded during 1975/76 and more than offset the small decline in sales for 1975/76 shipment. Two-thirds of the new sales registered for the current and following seasons were to the Republic of Korea. Taiwan took moderate quantities for the eighth successive week. Sales to Japan were light. At 121,000 running bales, exports rose sharply to the highest weekly total this season.

COMMENTS PREPARED BY OFFICE OF THE GENERAL SALES MANAGER, USDA

Comments on release of March 25, 1976 (based on reports from exporters received 3/15-3/23/76 under the daily reporting system).

Under the daily system, reports were received changing destination to the U.S.S.R. of 277.2 thousand metric tons of corn, primarily from unknown destinations. It is believed that this does not reflect new purchasing activity on the part of Soviet purchasing authorities but does reflect contract adjustments between U.S. exporters and intermediate foreign trading firms, mostly under contracts made since January 1, 1976. Also, 200,000 metric tons of new corn sales were reported for unknown destinations.
